## The people4ponies Pony Sponsorship Scheme

The *people4ponies* organisation was founded in 2003 to help a large group of ponies.

These ponies faced an uncertain future because they included wild, unhandled and traumatised animals, none of whom were approachable. By the end of 2004 about 30 of the ponies had been 'tamed and trained' using non-confrontational handling methods. Many had been placed in caring homes and a neutering programme was underway to prevent any more unwanted foals.

Our pony sponsorship scheme is for the benefit of a few ponies who are so severely traumatised that they need long term care and rehabilitation. They are unlikely to be offered a home in the foreseeable future.
